Introduction

2. Explaining d3

D3 Show Reel

D3 on Github

D3 Commands

D3 v3 minified

D3 v4 unminified

3. What you need to know

Atom.io

Chapter 1 - Refresher

5. Recalling CSS

D3 source code

Chapter 4 - Advanced shapes, with d3 and path

4. Finding other generators

D3 API reference

bl.ocks.org

Chapter 5 - Scales and axes

8. Using color scales

d3-scale interpolateViridis

9. Introducing other scales

D3 Scales

Quantile, Quantize, Threshold Scales

Threshold Key

Chapter 6 - Importing data into d3

8. Parsing HTML

[Enable CORS](#)

Chapter 7 - Additional graphics with d3 layout

3. Making a voronoi tesselation

[Voronoi Tesselation](#)

4. Introducing abstract layouts

[Tidy Tree vs. Dendrogram](#)

[Radial Dendrogram](#)

[Nest Treemap](#)

[Rainbow Treemap](#)

[Circle-Packing II](#)

[Example Authors](#)

[Partition](#)

[Arc Padding III](#)

[Fixed-Radius Near Neighbors](#)

[Draggable Blob II](#)

[Histogram](#)

[Chord Diagram](#)

[Hexagonal Binning](#)

Chapter 8 - Preparing your data for advanced graphics

5. Making flat data multidimensional with Nest

[Nest Treemap](#)

6. Filtering data

[Filtering in d3.js](#)

Chapter 9 - Interactivity

1. Introducing interaction

   [The Wealth & Health of Nations](#)

5. Introducing dispatch

   [Dispatching Events](#)

6. Transitions

   [Chained Transitions II](#)

   [Polar Clock III](#)

   [Easing](#)

7. Dragging and zooming

   [Drag & Zoom II](#)

   [Circle Dragging IV](#)

   [Brush & Zoom](#)

   [Brush & Zoom II](#)

Next Steps

2. Finding plug-ins

   [Hexagonal Binning](#)

   [Choropleth](#)

   [Fisheye Distortion](#)

   [d3-plugins](#)

   [Plugins](#)

3. Using the API reference

   [D3 API Reference](#)

   [D3 Home](#)

   [Mike Bostock](#)

4. Using d3 with other libraries

NVD3.js

Crossfilter

dc.js - Dimensional Charting Javascript Library

Shiny

Microsoft PowerBI

5. Conclusion
